

The idea

As a CMU student, do you have a busy schedule?

Are you still struggling to catch up with tons of group meetings?

Do you have to attend a group meeting when you are sooooo sleepy?

Now you have WeDiscuz!

WeDiscuz is an education-oriented platform designed mainly for students' group meetings.
You can have video/voice chat with your group members at any time convenient.

MEETING IS SO EASY!

Challenges

Group work

Challenge: What to do when group members' schedules conflict?

Solution: Begin the work as early as we can and divide the work wisely.

Management

Challenge: how to build, organize and manage a large project.

Solution: Start from very small part and build up or expand step by step.

**COLLABORATION
MAKES A DIFFERENCE!**

Technical Challenges

Challenge1: bugssss

Solution1: debug.....

Challenge2: How to realize the interactions between activities and the database?

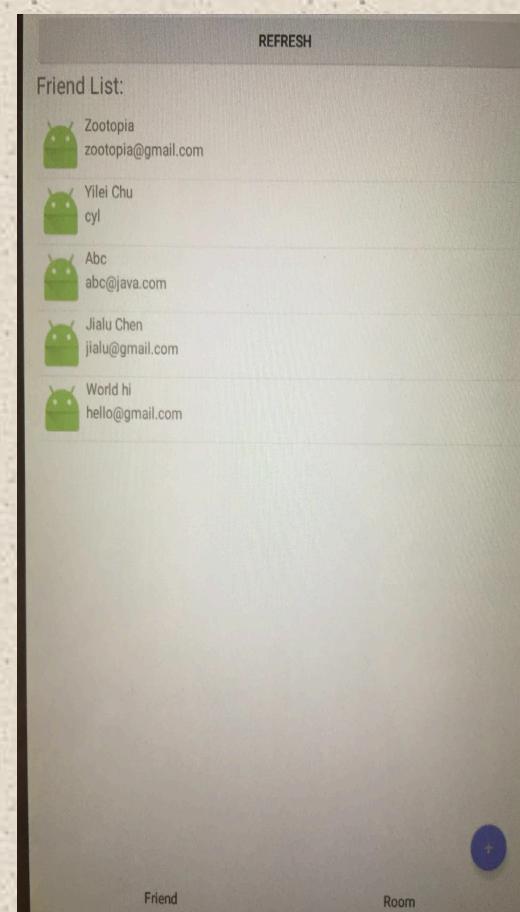

Solution2: Applied what we learned from Project1 to this project and search similar examples from Internet.

Challenge3: How to know if other users are calling me?

Solution3: Keep a thread working to check if calling table has been updated.

Challenge.....
